• Hand-drawn art provides superior quality graphics • New features coming soon! THE STORY It began when the first generation of the people of the Elden Lands discovered a mysterious stone. The stone has been called "Grand Stone", and has an important ability that resets the world. However, to master the stone's power, the person who possesses it must learn the existence of the "Myth", a legendary being. This is the story of the Elden Lord that searches for the truth of the Myth.--- abstract: 'We consider the simplified matching model in which a set of agents \$N\$ partially overlap a set of items \$K\$, each agent has an affinity to the items, and the object of the optimization is to partition the items across the agents such that each agent gets as much affinity as possible. We show that a partition that is obtained by a simple and intuitive algorithm, the "winner-take-all" algorithm, is optimal. The solution is unique, as long as the total number of agents and items is much larger than \$4N\$ and \$4K\$. We also show that a generalization of the "winner-take-all" algorithm can be used to obtain a substantial improvement on the known bounds for the general matching problem (where each agent has any affinities to any items), by taking advantage of the restricted structure of the simplified problem.' author: - 'Mu-Yen Chu[^1]' - 'Robert Kleinberg[^2]' bibliography: - 'auction.bib' - 'affinity.bib' -'matching.bib' title: 'Matching affinities using winner-take-all' --- Conclusion ===== We consider the simplified matching model in which a set of agents \$N\$ partially overlap a set of items \$K\$, each agent has an affinity to the items, and the object of the optimization is to partition the items across the agents such that each agent gets as much affinity as possible. Chunckus Review: Rockslider Review: Dead Stock Review: Gothic Hitman-Review: HAVAGANADALE REVIEW: Havaganadale is an upcoming action RPG by SugarPlumGames, with a Japanese release for PC. The game uses retro-style sprites to tell a story of shipwrecked survivors fighting to survive. You play as a "Nehek," a race of beings with the ability to take a dragon's form, but I highly suggest playing as a human simply because you start off human. Havaganadale takes place in the "Lost World," a mysterious island full of ruins and dangerous creatures. A race known as the "Yaba," half-dragon, half-man hybrids, led the Neheks (an advanced version of Yaba) to this new island to inhabit and start rebuilding the world. Unfortunately they were shipwrecked on the island and had no food nor the supplies to survive; their only hope was the remaining survivors of their own ship, now stranded on the island. Over time the survivors learned to live with the creatures and even some of them came to respect the dragons and fight alongside them, but their presence on the island hasn't been welcomed by everyone. Using your actions, you'll have the opportunity to shape the destiny of the "Lost World" and your own Nehek! We decided to launch a pre-alpha campaign called "InQuest," to help us test our combat and full gameplay. The latest iteration of the campaign focuses on customizing your character for your character class and developing your own Nehek! The design of the character also allows you to upgrade from scratch and boost stats, weapons, armor, skills, and even alter their appearance with up to four unique customization pieces. With the release of Havaganadale, we're also planning on releasing two bff6bb2d33

"People are even more active with their smartphone nowadays so I decided to make a cell phone RPG... I think it would be a good challenge for me." Namikawa Toshio Sound Artist Director: GENTA Kazuya I've gotten to know the the game industry for the past 20 years but I only recently entered the field as a composer for games with my first job as a sound director on the video game Ogre Battle: The Fantasy Battle for the SNES. With that game I learned how important it was to bring the games' worlds to life with a distinct audio direction. I was commissioned to work on many other video game franchises and soundtracks after that. Kawahara Noriyuki Music Composer I was hired by a friend of mine, who had worked as a sound director for the Enix otome, musical - a very popular genre in Japan - games, and asked me to work on a game I enjoyed. I did so, and feel my role as a composer is limited only to the sound of the game. I am deeply fortunate to be able to create music for the game I want to play and am very eager to complete this soundtrack. Oguro Takayuki Sound Director Game Director: Genta Kazuya I met Namikawa at the time Namikawa-san started to develop the game's story, and took a liking to the character design so I approached Namikawa-san to join the project as sound director. I first directed Sound Team "Vanguard" and then directed "Vanguard II: The Dark of Aether". Masuda Satoshi Director, General Manager Namikawa started the game as a proposal for the scenario, but I joined later when Genta-san asked. When Namikawa started to complete the scenario, I joined and was assigned to write the game's philosophy. **Astrology Opens the Door to Emotions, Lovemaking, Family, and a Long and Healthy Life The 6th House: Honesty, Integrity and Romance The ruler in this house is Venus. The other two houses are ruled by the planet Mars. The 6th House: Honesty, Integrity and Romance Love, affection and harmony are placed in the 6th House. The planet Venus is the ruler. If the 6th house is strong, it indicates a long and happy marriage, congeniality and a happy family life. The other planets of the 6th house fall within the area of sexuality, lovemaking and intimacy. The more favorable nature of Mars and the conjunction to the planet Neptune put it in the area of art and recreation. The 6th house is the house of children, which is a reflection of one's family life. If the 6th house is afflicted, it is a good indication of a tyrannical, self-centered, jealous and possessive father. It is bad for one's marital life. The 6th house can also reflect a relatively happy home life but where there are quarrels and resentment. The 6th house is also the house of marriage and the place where you decide if it is a love or a friendship, and is where you fall in love. This house is also the house of the family, the children, and the parents. The 6th house is a practical house that looks at the child and how one deals with it. The 6th house is in the sign of Libra, the 5th house is in Virgo, and the 7th house is in Gemini. This is the youngest placement of the astrological planets, only when you are born and the planets are still growing. A strong 6th house indicates a happy, congenial home life. The 6th house is for business and for money matters. With the 6th house being located in the 7th house, one is more inclined to accept domestic matters than to deal with business matters. The 6th house is of the nature of Mars, and gives one a strong desire to create, read, write, sculpt, draw, paint, dance, sing, and write poetry. In ancient astrology, it was said that the 6th house had a strong influence on sex, marriage, family, friendships and offspring. The 6th house was seen as the house**
